Brian,

Just to confirm what we discussed earlier, please proceed as planned and if we need any additional modifications to the SOPs we will let you know next week. Thanks, have a great weekend and good luck on Monday,

eugenia

**Subject:** NBSA Phase III Sediment Investigation- Vibracore

Good Morning Eugenia,

In preparation for sediment sampling (using a vibracore), we have prepared revisions to previous vibracore sampling, and sediment processing SOPs for your review and approval. The original SOPs were taken from the 2007 Newark Bay Phase II RIWP. Please see attached for EPA review and approval, a RLSO and Clean (accepted RLSO changes) version of the following SOPs:

- SOP No. 11. Sediment Collection Using Vibracoring Device
- SOP No. 12. Core Processing

If EPA could provide verbal approval of the attached SOPs ASAP it would be appreciated, as we are scheduled to begin sample collection Monday.

Please let me know if you have any questions, or want to discuss.

Thanks

Brian Mikucki
